- Our Kindergarten teacher, Amy Ford, presented to us a plan from the Kindergarten class. They have been learning about Universal Inclusivity and about its importance in our school to ensure all students have access to every part of our school, inside and out. Please see the attached presentation. -We were SO impressed with the thoughts, concern and dedication our youngest learners at GPS had! Parent Council is 100% on board with supporting this plan, and will begin by getting some “quick” things in motion from the Kinders wish list, such as an accessible bench, sensory wall, musical wall, playhouse. Amy will contact LaSalle Secondary woodworking teacher about building a picnic table, which the parent council will pay for. This will be our fundraising focus for next year! We will revisit this at the next couple of meetings.
