

Special Circumstance Application Deadline: June 18, 2026

New Special Circumstance applications need to be signed by the school and submitted to Tri-Board by June 18, 2026. These applications will be reviewed and processed for the first day of school, if they can be accommodated based on space available. Applications submitted after June 18 will not be reviewed until after school starts. If they can be accommodated, these special circumstance applications will be processed with a start date of October 5th at the earliest.

Special Circumstance students currently receiving transportation do not need to reply. They will remain on the bus unless space is required for eligible students. Schools and families will be contacted before the end of this school year if they have been removed for the upcoming school year. If schools know Special Circumstance students will not require busing in September, they should contact Tri-Board as soon as possible.
